Kanafeh is a delicious type of dessert that almost everyone likes. It is a traditional Middle Eastern dessert made with string pastry. It is said that Kanafeh was made during the Fatimid Age for the Khalifa who always felt hungry during the day of Ramadan. So, they thought of making this dessert for him to feel full while fasting. Since then, Kanafeh has been very popular, especially in Ramadan. Some people enjoy eating Kanafeh with

nuts and cream, while others like plain Kanafeh. To give Kanafeh sweetness, people pour sweet syrup made of sugar, water and a little lemon juice or add some honey instead.

Fattah is a famous traditional Egyptian dish to celebrate many events, especially Eid Al Fitr and Eid Al Adha. Fattah recipe goes back to Ancient Egypt where it was served in big feasts. The main ingredients of this recipe are crispy traditional bread, white rice, garlic, vinegar, tomato sauce and, of course, meat. This Egyptian dish is also known to other Arab countries as the fattah with the red sauce, because there is another type of fattah with white sauce like the Lebanese fattah.

The Lebanese fattah is covered with delicious tangy sauce that is made of yogurt, tahini (sesame paste), lime juice and garlic. There are so many steps to do this recipe properly:

- 🐧 Beef preparation
- 🐧 Tomato sauce preparation
- 🐧 Bread preparation
- 🐧 Rice preparation
- 🐧 Putting it all together

Fast food is a type of food that is made quickly and sold in restaurants or stores. It is made for people who are busy and need to eat fast. Fast food is usually not very healthy. It has a lot of calories, salt, and fat. It doesn't have a lot of good things like fruits, vegetables, and fiber. Eating too much fast food can make you sick and have problems with your heart and body.

Fast food has been around for a long time. People have been eating food on the go for a very long time. After World War II, fast food became even more popular because of cars and highways. People could drive up to a restaurant and get their food without even getting out of the car. Fast food is still popular today because it's easy and tastes good.

## Read the Story, then Answer the Questions

Koko is a small chick that lives happily with her Mum and Dad. Every day, Mum gives Koko fresh grains to eat. Koko eats them and thanks her Mum.

One morning, Mum gave Koko the grains to eat as usual, but she was angry and said, "I do not want to eat grains anymore. I want another food." Mum was surprised and said, "But chicks eat grains. You cannot eat other foods."

Koko was angry and left home. She went to the forest and saw some dogs eating meat. They offered her some, but she refused. Then, she passed by some cats that were eating fish. They offered her some, but she said no.

It was night and Koko was too tired and hungry. Finally, she went home and said, "Sorry, Mum. I'm so hungry. Can you give me some grains?" Mum said, "Sure, dear." Koko ate them happily and went to bed.

## Clothing in ancient Egypt

Clothing in ancient Egypt was very different from what we wear today. The people in ancient Egypt wore clothes made of linen, which is a type of fabric made from the flax plant. Linen was a good choice because it helped people stay cool in the hot desert. The clothes were usually left in their natural color, but sometimes plant dyes were used. In Egypt, the weather can get very hot, so it's good to wear light fabrics like linen and cotton. These fabrics will help you stay cool in the heat. It's also a good idea to wear comfortable shoes, like sneakers or sandals, because the pathways in Egypt can be rocky.

1 Was clothing in ancient Egypt different from what we wear today?

 Yes, it was.

2 What type of fabric did people use to make clothing in ancient Egypt?

3 Why did people in ancient Egypt wear clothes made of linen?

4 What should you wear when visiting Egypt to stay cool in the hot weather?

#### The Clothes and The Environment

We can make new clothes and help the environment too! Fashion is fun, but it can also hurt the Earth. Did you know that the fashion industry uses a lot of water and energy? It also makes a lot of pollution. That's not good for our planet. But there are things we can do to make a difference! First, we can buy less clothes. We don't need to have a lot of clothes to be happy. Second, we can buy better quality clothes. Sometimes, cheap clothes don't last very long. They get holes or lose their shape. But if we buy clothes that are made well, they will last longer. That's good for our wallets and for the environment. Lastly, we should think before throwing away our clothes. Most clothes are made of materials that don't break down in the landfill. Instead, we can try to fix them if they have a hole or give them to someone who can use them. We can also sell them or donate them to charity. There are lots of ways to give our clothes a second life!

- 1** What is the main idea of this passage?
  - a Fashion is fun but hurts the Earth.
  - b We should buy as many clothes as possible.
  - c We should always throw away our old clothes.
  - d We should only buy clothes from expensive brands.
- 2** What can we do to make our clothes last longer?
  - a Buy cheaper clothes.
  - b Throw away our clothes when they get a hole.
  - c Fix our clothes if they have a hole or give them to someone who can use them.
  - d Donate our clothes to charity.
- 3** Why is it important to buy better quality clothes?
  - a Cheap clothes don't last long and contribute to waste.
  - b Better quality clothes are more expensive.
  - c Better quality clothes use up more resources.
  - d Cheap clothes are trendier.
- 4** Why is it important to buy less clothes?
  - a Buying less clothes helps reduce resource consumption and pollution.
  - b Buying less clothes makes us happier.
  - c Buying less clothes saves money.
  - d Buying less clothes supports sustainable brands.
- 5** What is one way to give our clothes a second life?
  - a Throw them away in the landfill.
  - b Sell them to a thrift store.
  - c Keep them in our closet forever.

Read and write some sentences employing analogy about the future clothing of fashion:

The future of fashion in clothing is like the future that is a mystery to us. What that future will look like can be a mystery, as in a story that is like a puzzle to solve. But, whatever that future will be, it will be as pleasant as watching the sun rise each morning.

New fashions are always, for us, like choosing the flavor of ice cream we shall order at the little shop nearby. Always we will choose what we shall wear, as we choose what our dinner will be this evening.

# Inventions for Future Life

# Smartphones

1

## Read and Answer

Smartphones are amazing devices that can do many things. You can use them to call, text, or video chat with your friends and family. You can also use them to play games, watch videos, listen to music, take photos, and learn new things.

They can be distracting, addictive, and harmful to your health and well-being. Here are some tips on how to use smartphones wisely and safely:

Limit your screen time. Too much time on a smartphone can affect your eyesight, sleep, mood and concentration. Try to spend no more than one hour a day on your phone, and use that time for educational or creative purposes. Spend the rest of your time doing other activities, such as reading, playing, exercising, or spending time with your family and friends.

- 1** What can you use smartphones for?
  - a Calling, texting, or video chatting
  - b Playing games, watching videos, or listening to music
  - c Taking photos or learning new things
  - d All of the above
- 2** What are some demerits of smartphones?
  - a They can be distracting, addictive, and harmful
  - b They can be expensive, fragile, and outdated
  - c They can be boring, useless, and annoying
  - d None of the above
- 3** How much time should you spend on your phone per day?
  - a No more than one hour
  - b No more than two hours
  - c No more than three hours
  - d As much as you want
- 4** What should you use your phone time for?
  - a Social or entertainment purposes
  - b Educational or creative purposes
  - c Shopping or gaming purposes
  - d Any of the above
- 5** What should you do with the rest of your time?
  - a Read, play, or exercise
  - b Spend time with your family and friends
  - c Do your homework or chores
  - d All of the above

## Our Friendly Robots

1

### Read and Answer

Nadine is a fascinating robot that returns greetings, makes eye contact, and remembers all the conversations that have been had with her. She is a human-like robot with personality, mood, and emotions. The face and hands of Nadine are created by a Japanese company Kokoro, similar to her designer, Professor Nadia Thalmann.

This glowing skin and haired humanoid robot can recognize you from previous visits, make eye contact, shake your hand, and continue chatting based on previous meetings. She has 3D depth cameras, a microphone, and a webcam to gather visual and audio inputs. Then these inputs enable her to recognize different faces, gestures, emotions, and behavior to analyze and respond accordingly. Nadine is working at AIA Singapore (an insurance company) as a receptionist.

- 1 What is the name of the robot that returns greetings, makes eye contact, and remembers conversations?
- a Sophia                      b Nadine

## Future Cities around the World

1

## Read and Answer

## AMSTERDAM

Let's start with the Netherlands. Its capital, Amsterdam, has received many accolades for its smart projects, such as the so-called Amsterdam Smart City, which has already proven its success. Also, projects such as Climate Street, achieved, among other things, energy-efficient street lighting and smart public transport helped to reduce pollution.

## LONDON

We flew to the UK, to the jewel in the crown, modern London. The Public Innovation Exchange is a great opportunity for London companies and startups to find solutions to a wide variety of urban problems. There's cooperation between the public, technology and academic sectors to make London the world's best city.

### BARCELONA

Barcelona is full of technological gadgets at street level, such as LED sensors that monitor traffic, air quality, pedestrian activity and even noise. We can also find smart garbage cans equipped with vacuum cleaners that drain garbage to the bottom subway, minimizing odors and reducing garbage truck trips. Note that the city's bike-sharing model was one of the first to reduce the use of motor vehicles, especially in the city center.

#### Answer True or False:

- 1 Barcelona has LED sensors at street level that monitor various aspects like traffic and air quality. (True)
- 2 Amsterdam is the capital of the Netherlands and has implemented smart initiatives like Amsterdam Smart City. (.....)
- 3 Climate Street is a project that aims to increase pollution in Amsterdam. (.....)
- 4 The smart garbage cans in Barcelona use vacuum cleaners to send garbage to the top floors of buildings. (.....)
- 5 There is not any cooperation between the public, technology and academic sectors to make London the world's best city. (.....)

2

## Discuss and Answer

- 1 What is the name of the smart project that has proven its success in Amsterdam?
- 2 Where can we fly to after visiting the Netherlands? Why?
- 3 Who can benefit from the Public Innovation Exchange in London?
- 4 How do the smart garbage cans in Barcelona minimize odors and reduce garbage truck trips?
- 5 Why is the bike-sharing model in Barcelona important for reducing the use of motor vehicles?

## Amazing Mobile Homes

1

### Listen, Read and Answer

Mobile homes have come a long way and are much better now than they used to be. They used to be called trailers, but now they are called manufactured homes. They are built to higher standards. There are many different mobile home manufacturers, but some of the best ones are Clayton Homes, Champion Home Builders, Skyline Homes, and Palm Harbor Homes.

Luxury mobile homes are also available. They are built in factories. The bedrooms are wide and have big closets. Luxury mobile homes can come in different sizes, so there are options for everyone. Bathrooms can include spa-like features such as garden tubs and amazon rain showers. One of the most sought after features in a new home is an open floor plan. Homes with open floor plans feel bright and spacious, with higher ceilings and more natural light.

The kitchen is connected to living spaces, creating a comfortable atmosphere that suits entertaining and everyday life. No one is stuck in the kitchen preparing the food while everyone else visits in the living area.

**1** What is the new name for trailers that are built to higher standards?

 They are called manufactured homes.

**2** Who are some of the best mobile home manufacturers?

**3** How are luxury mobile homes built?

**4** Why are open floor plans desirable in new homes?

**5** How do the luxurious bathrooms look like in mobile homes?

**Listen, Read and Present**

Have you ever wondered if there will be flying cars in the future? It's a really cool idea, right? Well, some people think that flying cars could become a reality soon. Can you imagine driving a car that can also fly? That would be so amazing!

Right now, some companies are already working on making flying cars. One company called Alef Aeronautics has even started taking orders for their flying car called the Alef Model A. **It** can drive on roads and fly in the air! How cool is that? It can carry up to four people and costs \$299,999. But Alef Aeronautics is not the only company making flying cars. There are other companies too, like XPeng Aero HT X2 from China and Terrafugia Transition from the USA and China. These cars run on electricity instead of gas, which is better for the environment. They can take off and land vertically, which means they don't need a long runway like airplanes do. They can even fly over cities and avoid traffic jams! That would be so convenient.

But there are still some challenges and risks with flying cars. We need to figure out rules for flying over cities and make sure it's safe. We don't want cars crashing into each other or falling on people! It's also important to think about how flying cars will take off, land, and change lanes in the air. So, even though flying cars could be available as soon as 2024, there are still some things we need to figure out before they become a reality.

2

**Think and Answer**

1 What is one company that is making flying cars?

 Alef Aeronautics Company.

2 What is one advantage of flying cars?

3 What are some challenges and risks with flying cars?

4 Why is it important to consider safety when developing flying cars?

5 What are some potential benefits of flying cars?

3

**Read again and Choose the Correct Answer**

1 According to the text, one advantage of flying cars is .....

a Flying cars can't carry up to four people.

☒ b Flying cars can avoid traffic jams.

c Flying cars can't take off and land vertically.

d Flying cars can't run on electricity.

- 2 One challenge or risk mentioned in the text regarding flying cars is .....
- a Flying cars are expensive.
  - b Flying cars need long runways.
  - c Flying cars may crash into each other.
  - d Flying cars are not available yet.
- 3 The main idea of this passage is .....
- a Flying cars are already a reality.
  - b Flying cars will be available for everyone.
  - c Flying cars are better for the environment.
  - d Flying cars have advantages and challenges.
- 4 Why is it important to figure out rules for flying over cities?
- a To prevent cars from crashing into each other.
  - b To make sure flying cars can take off and land vertically.
  - c To ensure flying cars can run on electricity.
  - d To avoid traffic jams.
- 5 The underlined pronoun 'it' refers to .....
- a A company
  - b A car
  - c A flying car
  - d A spaceship

## 4

**Distinguish Fact, Fiction and Non-Fiction**

- 1 In the movie "Back to the Future", Doc Brown's DeLorean can fly and travel through time.
- 2 'Flying car', 'roadable aircraft', and other terms are used to describe the all-purpose vehicle that can fly like an airplane and drive on the highway like an automobile.

- 3** As noted by the Washington Post, key advancements — such as the use of non-metal body structures and electric power rather than heavy gasoline engines — have helped jump-start flying-car efforts, encouraging both investment and innovation.

## Read and Answer

The Great Pyramid is a miracle in the history of human architecture. It is generally believed that the pyramid is the tomb of the ancient Egyptian king, Khufu. Among the Egyptian Pyramids of Giza, the Pyramid of Khufu allows visitors to go inside it. The entrance to the pyramid has become larger by excavation, and cement steps and iron guardrails have been set up. Going inside, the passage becomes narrower, even many segments are less than 1.5 meters in height and width.

In order to make it easy for visitors to go into the passage, non-slip wooden boards, handrails, lamps have been laid in the passage. About 20 minutes ahead of the passage, you can reach the King's Chamber. The last segment is the narrowest and lowest section of the passage, with a height and width of less than 1.2 meters, but the four sides are extremely smooth. Really, the Great Pyramid is amazing, that's why it was one of the seven wonders of the Old World.
